EDUCATION

Billabong High International School, Puducherry

High school and Higher Secondary
2022 - 2025

Puducherry Technological University

B.Tech Computer Science and Engineering

2026 - Present

SKILLS

Programming Languages

- Python
- HTML
- CSS
- Basic Java

Tools & Technologies

- Git & GitHub
- Visual Studio Code
- Flask

Core Concepts

- Object-Oriented Programming
- Basic Data Structures
- Responsive Web Design

LANGUAGE

- English - professional proficiency
- Tamil - native

INTRODUCTION

Motivated Computer Science Engineering student with a strong academic record and a passion for software development. Working with Python, JavaScript, HTML, CSS, Git, and problem-solving, with hands-on experience building responsive web applications. Seeking opportunities to learn, contribute, and grow as a software developer.

PROJECTS

Calculator

Tech Stack: JavaScript, HTML, CSS

- Built a calculator named “NovaCalc.”
- Supports arithmetic operations with user-friendly interface.
- Implemented keyboard and mouse input support for improved accessibility.

Portfolio Website

Tech Stack: JavaScript, HTML, CSS

- Designed and developed a modern personal portfolio using HTML and CSS.
- Implemented responsive layouts, animations, timeline section, project showcase, and contact section.
- Focused on clean UI/UX and mobile compatibility.

ACHIEVEMENTS

- Secured 9.31 CGPA in the first year of B.Tech.
- Successfully completed multiple self-learning projects in web development.
- Continuously improving programming and software development skills through practical projects.

EXTRA CURRICULARS

- Participated in university-level Table Tennis activities.
- Active learner exploring software development and modern web technologies.
